TOTAL FIRE SOLUTIONS | TOTAL RESCUE | TOTAL MEDICAL

- 
- The background image shows a large white truck with 'TOTAL RESCUE' branding. The side of the truck lists services: 'Ontario Approved Working at Heights Provider WAH-34962', 'Onsite Confined Space Entry and Technical Rope Rescue', and 'Fire Extinguisher and Fire Systems Maintenance'. A graphic of a person rappelling is also visible. In the background, there is an industrial facility with tall silos and a conveyor belt. A yellow hose is connected to the truck, and a 'DANGER' sign for confined space entry is on the ground.

LIVE FIRE EXTINGUISHER TRAINING

The background of the slide is a close-up photograph of a fire engine's dashboard and engine. The dashboard is black and features several analog gauges, including a large RPM gauge at the top right and a smaller voltage gauge below it. There are also two red indicator lights labeled 'LOW OIL' and 'HI TEMP'. A black ignition switch with a silver key is visible. Below the ignition switch, there's a 'DETROIT DIESEL' label. In the foreground, a red fire hose is coiled, and various engine components like bolts and pipes are visible. The overall scene is brightly lit, suggesting an outdoor setting.
